Linda:

Can you verify that my TDD mods made it to you? I tried to modify the Delta TDD but it still has not released and will not allow amendments. Weston is asking about these TDDs after your meeting with them this week.

Thanks

Subject: Period of Performance for Weston TDDs

Linda:

I revised the POP for the following TDDs but needed to pass on information to you.

May Cooperage: Removal Support - POP was revised to 1/4/2014

May Cooperage: Removal Assessment 2 - POP was revised to 1/4/2014. The issue here is that it did not appear that amendment 2 had been processed which added money to the TDD (\$100K). The SRO Memo for Amendment 2 was submitted before going on vacation on 6/1/13.

Delta Shipyard Pits: I found this TDD in EAS but it would not allow you to amend it. As you mentioned, it is likely that it has not completely synced in the system as it was just transferred over from POI. I need the POP changed to 8/30/13.

Susan indicated that Chris Petersen did a mass SRO memo for all TDDs that were being extended for POP extensions and that he worked with you guys on that.

Thanks
